EXPERIENCE

As a Full-Stack Software Developer at Redn Technologies (January 2022 – Present), I have been instrumental in designing, developing, and maintaining both the front-end and back-end components of web applications. My role involves collaborating with cross-functional teams to deliver high-quality software solutions.

THE PROJECT WAS COMPLETED BY ME

1). Title of Project:- Cymatic.

Website:- <https://cymatic.in/>

Description:- Cymatic is a cutting-edge online class management system designed to revolutionize the way educational institutions, teachers, and students interact in the digital age. Developed on the robust and versatile Laravel framework, Cymatic offers a seamless, efficient, and user-friendly platform for managing all aspects of online education and Backend Admin Panel (CMS).

Technology Used :- HTML, CSS, Bootstrap, JavaScript, JQuery, Php, Laravel Framework, MySQL.

2). Title of Project:- Mahi Packers and Movers.

Website:- <https://mahipackersandmovers.in/>

Description:- Mahi Packers & Movers is a trusted relocation service provider in Patna, Bihar, specializing in household and office shifting, vehicle transportation, and warehousing. The company emphasizes high-quality packing materials, professional handling, and timely delivery.

Technology Used :- HTML, CSS, Bootstrap, JavaScript, jQuery, Php, Laravel Framework, MySQL.

3). **Title of Project:-** Taxsing.

Website:- <https://taxsing.in/>

Description:- TaxSing.in is a dynamic platform tailored specifically for Chartered Accountants, offering a comprehensive range of services related to taxation, GST, and company registration. With a user-friendly interface and robust functionality, TaxSing.in streamlines the intricate processes involved in financial compliance.

This platform serves as a one-stop solution for professionals and businesses alike, providing expert guidance and assistance in navigating the complexities of tax regulations and compliance requirements. Whether it's filing tax returns, managing GST obligations, or facilitating company registrations, TaxSing.in offers efficient solutions tailored to meet the unique needs of its users with Backend Admin Panel (CMS).

Technology Used :- HTML, CSS, Bootstrap, JavaScript, jQuery, Php, Laravel Framework, MySQL.

4). **Title of Project:-** Redn Technoloies.

Website:- <https://redn.in/>

Description:- Completed Full Project With Frontend SEO Friendly and Backend in Laravel Framework.

Redn Technology offers a comprehensive suite of services to cater to all your digital needs. Our fully dynamic website is designed to adapt seamlessly to the evolving demands of the digital landscape. From web development to mobile application development, software solutions to e-commerce platforms, and digital marketing strategies, we provide end-to-end solutions to empower your online presence.

One of our key offerings includes dynamic blog post creation, managed effortlessly through our intuitive admin panel. This allows you to engage with your audience effectively by regularly publishing informative and engaging content. Whether it's sharing industry insights, updates about your products or services, or addressing customer queries, our blog post feature ensures that your website remains a hub of relevant and up-to-date information.

Technology Used :- HTML, CSS, Bootstrap, JavaScript, jQuery, Php, Laravel Framework, MySQL.

5). **Title of Project:-** BuildEezi.

Website:- <https://buildeezi.com/>

Description:- Completed Full Project With Frontend SEO Friendly and Backend in Laravel Framework.

Buildeezi seems like a comprehensive platform for managing various aspects of construction projects, including apartment booking, report generation, invoice generation, and lead management. It sounds like a valuable tool for builders and construction professionals to streamline their operations and manage their projects efficiently. Dynamic features likely make it adaptable to various project requirements, which can be a significant advantage in the construction industry where projects often have unique needs.

Technology Used :- HTML, CSS, Bootstrap, JavaScript, jQuery, Php, Laravel Framework, MySQL.

6). **Title of Project:-** Deconsilio.

Website:- <https://www.deconsilio.com/>

Description:- Completed Full Project With Frontend SEO Friendly and Backend in Laravel Framework.

The De Consilio website is a fully dynamic platform featuring an admin-managed interface that supports CRUD operations for services, events, bookings, and blog posts. It also includes user registration and the

ability to purchase psychometric tests. This setup allows for efficient content management, ensuring the website remains current and relevant for users seeking career counseling and educational guidance. The integrated purchase and registration system streamline user interaction with the platform's offerings.

Technology Used :- HTML, CSS, Bootstrap, JavaScript, jQuery, Php, Laravel Framework, MySQL.

7). **Title of Project:-** ExcelWash.

Website:- <https://excelwash.in/>

Description:- Completed Full Project With Frontend SEO Friendly and Backend in Laravel Framework.

Excel Wash offers a dynamic, fully integrated laundry and staff management system designed for both commercial and residential clients. Based in Patna, they provide premium laundry, dry cleaning, and bulk laundry services. The platform leverages advanced technology to ensure high-quality, efficient, and timely service. The professional team at Excel Wash is dedicated to delivering personalized and hygienic solutions tailored to customer needs.

Technology Used :- HTML, CSS, Bootstrap, JavaScript, jQuery, Php, Laravel Framework, MySQL.

8). **Title of Project:-** VaagaAcademy.

Website:- <https://www.vaagaacademy.com/>

Description:- Completed Full Project With Frontend SEO Friendly and Backend in Laravel Framework.

Vaaga Academy serves as a centralized hub for online learning, empowering both instructors and students to effectively collaborate and engage in educational activities from anywhere in the world. Whether you're a teacher looking to transition to online teaching or a student seeking a flexible and convenient learning platform, Vaaga Academy offers the tools and support needed to succeed in the virtual classroom.

Technology Used :- HTML, CSS, Bootstrap, JavaScript, jQuery, Php, Laravel Framework, MySQL.

9). **Title of Project:-** Zobhilo.

Website:- <https://zobhilo.com/>

Description:- Completed Full Project With Frontend SEO Friendly and Backend in Laravel Framework.

Zobhilo Pvt Ltd your one-stop destination for unbeatable prices and unparalleled respect in multi-service online and offline solutions with e-commerce platform. With a commitment to excellence, we offer a wide array of products and services tailored to meet your needs.

Technology Used :- HTML, CSS, Bootstrap, JavaScript, jQuery, Php, Laravel Framework, MySQL.

10). **Title of Project:-** Kaun Banega Lakhpati.

Website:- <https://kblinfo.com/>

Description:- Completed Full Project With Frontend SEO Friendly and Backend in Laravel Framework.

KBL is an online quiz competition platform where students register and participate in knowledge-based exams. Top scorers are rewarded with full educational support, including tuition fees and study expenses, funded by KBL. The initiative aims to empower bright, deserving students by turning their knowledge into a path toward a better future.

Technology Used :- HTML, CSS, Bootstrap, JavaScript, jQuery, Php, Laravel Framework, MySQL.

Completed Overall 18+ Projects Including E - commerce, School Management System Medical Websites, Doctors Website, School Website and Portfolio Website With CMS.
